GAURAV GUPTA

Senior Product Manager | Builder | Ex-Founder
Jaipur, India | +91 95717 06464 | ar.gaurav20@gmail.com | linkedin.com/in/ar-gaurav | gauravg.dev | github.com/argaur

PROFESSIONAL SUMMARY

Senior Product Manager with 8+ years in product, from enterprise platforms to my own builds in health, commerce, travel, finance and government portals. At JindalX, I owned a portfolio of 7 B2B SaaS products across 16 enterprise clients and 5,000+ users and delivered 30+ digital transformation initiatives on time, with hiring time cut 50%, 30% transaction growth and 50% shorter audit cycles. Since June 2025 I have worked on 15 projects across 11 domains, from live products to research concepts. I turn product ideas into working specs and prototypes.

EXPERIENCE

RETHINK SYSTEMS | Jaipur

Product Consultant | Jul 2026 to Present

Mentor, AI Building, Cohort 8 | Jul 2026 to Sep 2026

- Coached practicing Product Managers on using Claude and AI tooling to take an idea to a shipped, working product. I returned as a mentor after completing Mastering AI Product Management, Cohort 7.
- Named Best Mentor of Cohort 8 by Rethink Systems (Certificate of Excellence, Sep 2026).

INDEPENDENT | Jaipur

Independent AI Product Builder | Jun 2025 to Present

- 15 projects across 11 domains, from live products to research concepts. Each one is listed with its status at gauravg.dev.
- Part of a 6-person team that placed 3rd at the Rethink AI-First Buildathon, shipping Vitae, an AI health-records PWA, in a 10-day sprint.
- With a teammate, placed in the Top 250 (rank 64) of about 13,700 applicants at Build What Moves India (Varun Mayya x OpenAI), shipping a working GST-notice prototype.
- Built a Telegram AI assistant (28+ commands) on Claude API and Python. It is now retired, and it became the brief for life-os, a personal operating-system app in build.

JINDALX | New Delhi

Product Manager to Senior Product Manager, Digital Transformation | Jul 2022 to May 2025

Joined as Product Manager in Jul 2022. Promoted in Apr 2024. Employee through Jan 2025, then retained as a consultant from Feb to May 2025.

7 B2B SaaS products | 16 enterprise clients | 5,000+ users | 30+ initiatives delivered on time

- Led 2 Product Managers, 2 Business Analysts and 2 product interns, and owned a portfolio across talent management, performance evaluation, knowledge management, CRM, HRMS, quality auditing and BI. Results include hiring time cut 50%, 30% transaction growth and 50% shorter audit cycles.
- Talent Management Suite: moved hiring from Excel and paper to one system, with six linked specs from requisition to onboarding, written and built by me, and one OpenAI call at screening. Hiring time cut 50%.
- Performance Management Platform (Xcellence): built on Airtable and GenAI for enterprise teams, which reduced manual review effort through AI recommendations and structured workflows.
- Knowledge and Learning Platform (Insight): knowledge base and L&D platform for 5,000+ employees, with AI search and a chatbot.
- CRM and Auction Platform (AuctionIT): runs the full auction lifecycle and CRM. A UX redesign drove 30% transaction growth.
- HR Management System (Touchpoint): HRMS for 5,000+ floating BPO agents, covering shift scheduling, payroll, multi-state compliance and ERP integration.
- Quality and Auditing Platform (AQUA): cloud quality auditing and compliance, with governance and UAT across the enterprise. BI Platform (Jx Data Cloud): unified data warehouse with Power BI dashboards and automated KPI alerts.

ONEVALLEY | Gurugram

Product Manager | Sep 2020 to May 2022

- Owned product strategy, roadmap and sprint delivery for PassportOS, a B2B SaaS startup-ecosystem platform serving universities, banks, accelerators and corporate incubators. I ran requirements and KPI reporting across enterprise clients, including Queens University.

- Contributed to Passport (B2C founder platform) and the Entrepreneurship World Cup platform across 200+ countries: application intake, judging workflows and multi-stakeholder coordination.

TACCOMACCO EDUTAINMENT | Gurugram

Co-Founder and COO | Jul 2017 to Sep 2020

- Co-founded a digital content platform and took a B2C subscription reading app from concept to launch on Android and iOS, owning pricing, content architecture and go-to-market.
- Built the internal CMS and publishing system that shipped 500+ digital titles.
- Ran a creator incubation program and mentored 6+ creators from idea to published product. Covered by YourStory.

RSP DESIGN CONSULTANTS | Gurugram

Design Manager, Architecture | Sep 2014 to Jun 2017

- Managed 40+ architectural projects across IT, healthcare and institutional sectors, with 95% client retention and a 25% reduction in delivery time.

SELECTED PROJECTS

- SitelineCRM, B2B SaaS, public demo: a Telegram-native sales CRM for a coworking aggregator. Solo build in about 51 hours, with an eval harness.
- PM Pathfinder, EdTech, public demo: a 10-question career diagnostic with a retrieval chatbot grounded in real PM frameworks, on a pgvector database I deployed.
- Notice, Explained, Govtech, rank 64 of about 13,700: traces a GST notice mismatch row by row, so a taxpayer sees the evidence before writing a reply. Team of 2.
- Vittam, Personal Finance, public demo: a household finance PWA, built solo for my own family. Encrypted in the browser.
- Vitae, Health Tech, public demo: prescriptions a family can read. Team of 6 with shared ownership.
- Blinkit Command Hub, Quick Commerce, public demo: an independent prototype that ranks the exceptions a dark store manager must act on first.
- Trivo, Travel, public demo: a group travel planning platform, from pain points to a working PWA.
- YouTube 2.0, Consumer Media, research concept: three prototypes for finding deep content over popular content.

SKILLS

Product: Discovery and roadmapping | Go-to-market | OKRs and prioritization | Agile and Scrum (CSM, CSPO) | Stakeholder mapping | Cross-functional delivery | UX research | UAT, release and change management

AI and Automation: RAG pipeline design | AI evaluation | Prompt engineering | Claude and Gemini APIs | OCR to structured-record pipelines | Airtable | n8n (personal workflows)

Data and Tools: SQL and analytics (funnel, cohort) | Python | PostHog | Looker Studio | Power BI | Supabase | Docker

---

EDUCATION

Bachelor of Architecture (B.Arch) | MNIT Jaipur | 2009 to 2014
